RHODIAN

Security Essentials Services Bundle

⚠ What You Need To Know

Are you ready to start improving your cybersecurity posture?
The Rhodian Security Essentials bundle covers key compliance requirements for cybersecurity and is tailored to meet your specific needs. Here are the expert services included within this bundle:

Risk Assessments on an annual basis
- Identify risks and gaps in security controls
- Make more informed decisions
- Prioritize remediation steps
- Due Diligence for acquisition candidates

Incident Response Plan Creation and Review
- Annually, as mandated in all 50 states
- Tabletop testing with simulated cyber incidents
- Documented assignments of roles and responsibilities

Vulnerability Scanning
- Automated scanning to discover live hosts, open ports, and known vulnerabilities in the client's technology systems

Programmatic Cybersecurity Services
- Endpoint Detection & Response (EDR)
- Security Operations Center (SOC)
- Security Awareness Training, Phishing Simulations, and Dark Web Credential Monitoring
- Spam and malware filtering (inbound/outbound)
- Firewall Management

Service Add-ons
- Internal Vulnerability Scans
- Penetration Tests
  - Internal, External, Mobile or Wireless
- Policy & Procedure Development
- Email Security Add-ons
- Cybersecurity/HIPAA Policies & Procedures Review and Guidance
- vCISO

Benefits to our Partners

- Compliance with regulatory standards across multiple industries (including current HIPAA rulemaking in progress)

- Proactive identification of critical vulnerabilities that can harm operational capacity, reducing the possibility of business-ending events or costly post-incident mitigation

- Evaluation of current security posture and vendor/solution performance by a trusted third party

- Ability to create multiple layers of defense from educating end users, technical hardening, and cybersecurity program improvements

Why Choose Rhodian Group
